

INDOGET TAMA ABADI

CORPORATE PROFILE

A leading emerging trading and investment house connecting Indonesia's markets, commodities, and opportunities with the world.

ESTABLISHED 2025	LOCATION Jakarta, Indonesia	FOCUS Trade • Investment
----------------------------	---------------------------------------	------------------------------------

From Indonesian Ports to Global Markets.

01 COMPANY OVERVIEW

A modern Indonesian trading and investment house built around practical execution, clear communication, and long-term partnerships.

Indoget Tama Abadi operates as an integrated organization connecting Indonesian products and commercial opportunities with international buyers, while also supporting foreign partners exploring business entry and investment in Indonesia.

The company's public-facing business is organized around two core service lines: Global Product Supply & Export and Foreign Investment Facilitation.

GLOBAL PRODUCT SUPPLY & EXPORT

Sourcing, quality control, export documentation, logistics and shipment coordination for commercial products from Indonesia.

FOREIGN INVESTMENT FACILITATION

Entity setup guidance, administrative facilitation, market-entry support, local introductions and ongoing operational guidance.

INDONESIAN MARKET ACCESS

A local operating perspective for partners that need practical coordination rather than a purely advisory relationship.

LONG-TERM PARTNERSHIPS

A focus on responsive communication, follow-through and sustainable commercial relationships.

02 VISION & MISSION

VISION — To become a trusted and preferred business partner across Indonesia and the wider region, delivering world-class solutions in trading, supply chain, and investment — fostering profitable, long-term relationships built on innovative, value-driven solutions.

MISSION

- Connect global and local markets through reliable, efficient supply chain and export/import services.
- Identify, develop, and invest in promising business ideas that generate sustainable, long-term value.
- Build and grow Food & Beverage franchise capabilities that deliver consistent quality and memorable customer experiences.
- Operate with integrity, transparency, and accountability in every market we enter.
- Empower people and partners through collaboration, innovation, and shared success.

03 OUR STORY

Indoget Tama Abadi was founded as a joint venture bringing together professionals whose complementary backgrounds in nonprofit leadership, international trading, and technology-driven business development converged around a shared ambition: building a modern Indonesian trading and investment house capable of competing on a global stage.

The founders recognized that Indonesia's growing economy, strategic trade position, and expanding consumer market required more than capital alone — it required disciplined operations, sector expertise, and a practical understanding of how to build and execute businesses from the ground up.

04 PHILOSOPHY

Our philosophy is built on four core principles: Professionalism, Flexibility, Accountability, and Accessibility. We are committed to delivering objective advice, industry best practices, and tailored solutions that maximize value for clients and partners.

05 CORE VALUES

INTEGRITY

Honesty, transparency and ethical practice.

EXCELLENCE

High standards of quality and reliability.

SUSTAINABILITY

Long-term value with environmental and social responsibility.

INNOVATION

Creative, forward-thinking solutions.

COLLABORATION

Partnership and teamwork for shared success.

06 WHY PARTNERS WORK WITH US

PROVEN, COMBINED EXPERTISE

Decades of hands-on experience across nonprofit leadership, international trading and technology-enabled business development.

OPERATIONAL DISCIPLINE

Entrepreneurial agility supported by structured operations, sourcing and supply-chain coordination.

FLEXIBILITY & CLIENT-CENTRIC SERVICE

Adaptable solutions, direct communication and continued follow-up.

INTEGRATED BUSINESS MODEL

Trading, investment and broader business capabilities connected within a single accountable organization.

07 GLOBAL PRODUCT SUPPLY & EXPORT

End-to-end supply-chain coordination connecting Indonesian suppliers, manufacturers and international buyers — from sourcing and quality coordination through export preparation and shipment.

WHAT'S INCLUDED

- Supplier sourcing and vetting across Indonesian regions.
- Quality control and pre-shipment inspection coordination.
- Export documentation and regulatory-compliance coordination.
- Freight, logistics and shipment coordination.
- After-sales support and long-term commercial partnership.

FEATURED COMMODITIES

COFFEE

Indonesian-grown Arabica and Robusta beans.

COCONUT CHARCOAL

Coconut-shell charcoal for shisha, BBQ and industrial use.

TUNA

Fresh and frozen tuna sourced from Indonesian waters.

INDONESIAN SPICES

Nutmeg, cloves, pepper, cinnamon and other Indonesian-grown spices.

08 FOREIGN INVESTMENT FACILITATION

Comprehensive support for foreign investors seeking entry into Indonesia — from entity setup and administrative facilitation to practical, on-the-ground market guidance.

WHAT'S INCLUDED

- Legal entity setup guidance, including PT / PT PMA pathways.
- Administrative and regulatory facilitation, including NIB and licensing support.
- Market-entry strategy and sector guidance.
- Local partner and supplier introductions.
- Ongoing operational support after launch.

09 HOW WE WORK

A disciplined process from first conversation to execution and ongoing partnership.

01 — INQUIRY

Tell us the product or investment objective, volume or scope, destination and requirements.

03 — SOURCING & STRUCTURING

We identify suitable supply options or structure the appropriate market-entry pathway.

05 — EXECUTION

Product preparation, agreed quality checks, logistics or administrative facilitation are coordinated.

02 — REQUIREMENTS

We clarify specification, packaging, destination and other commercial details.

04 — QUOTATION

Availability and commercial terms are discussed for the specific request.

06 — ONGOING PARTNERSHIP

Communication continues through shipment, follow-up and agreed next steps.

10 OPERATIONS & PRODUCTS

Real operations, real products.

Coffee

Export Operations

Coconut Charcoal

Warehouse & Loading

The media library reflects the practical side of sourcing and export: commodity handling, warehouse operations, container preparation and product loading.

11 FOUNDER-LED MANAGEMENT

Indoget Tama Abadi operates under a lean, founder-led structure designed for fast decision-making while maintaining clear accountability across the business.

ISLAM MOHAMED

Over 15 years of experience leading and managing organizations, contributing strong governance, stakeholder management and organizational leadership.

TAREK MOHAMED

Over 15 years of experience in trading and supply chain management across multiple products and countries. Currently leads two other market-leading companies in coffee and F&B.;

ABDEL RAHMAN

A software engineer by trade with over 10 years of business-development experience, bringing a technology-driven, data-informed approach to identifying and scaling opportunities.

Founder-led • Lean • Accountable

12 SELECTED PARTNERS

Indoget Tama Abadi works alongside a growing network of suppliers, distributors, financial institutions and strategic partners across Indonesia and abroad. The current website presents selected partner identities visually; partner names and relationship descriptions should be confirmed before being stated formally.

13 OUR EXPERIENCE

Although the company was formally established as a joint venture in 2025, Indoget Tama Abadi is built on the combined experience of its founding team.

- 15+ years of combined-trading and supply-chain perspective through the founding team's commercial experience.
- Tarek Mohamed brings 15+ years in trading and supply chain management across products and countries, including leadership in coffee and F&B; businesses.
- Islam Mohamed brings 15+ years of organizational leadership and governance experience.
- Abdel Rahman brings 10+ years of business-development experience supported by a software-engineering background.
